

iContracting

ENVIRONMENTAL POLICY

iC-0000-EN-POL-0001

iContracting is committed to carrying out all operations in a way that protects the environment, prevents pollution, and promotes the sustainable use of natural resources. We recognise our responsibility to minimise environmental impacts and to operate in a manner that supports the long-term health and resilience of land, water, air, flora, fauna, and the communities in which we work

It is the responsibility of iContracting to:

- Ensure that environmental considerations are included in all aspects and levels of our business planning and operations, consistent with sound business management practices.
- Strive to prevent pollution and to continually reduce environmental impact by conserving the use of raw materials and resources in our operations and services, together with minimising waste.
- Comply with all relevant environmental laws, regulations, and other requirements, and work to prevent pollution and adverse environmental impacts by implementing environmental management practices and procedures.
- Work to support the legislation and the policies of environmental agencies and contribute to community discussion where these relate to our operations.
- Implement and maintain an Environmental Management System in accordance with the International Environmental Management Standard ISO 14001.
- Set and use environmental objectives and targets to continually drive performance improvements.
- Strive to continuously improve our environmental performance and to reduce our environmental impacts through regular review of our activities, practices and procedures. iContracting will strive to realise our environmental philosophy by ensuring all members of the company embrace this Policy.
- Strive to achieve no environmental incidents.

iContracting is committed to operating responsibly, minimising environmental impact, and contributing to sustainable outcomes across all our projects and communities.

Craig Mack
